Ethical Sourcing Program

Our Ethical Sourcing Program outlines a minimum set of standards, assessment and monitoring processes that are aligned with Wesfarmers and other globally accepted good practice standards.

This program provides a framework for us to assess factory working conditions to ensure that factories meet or exceed minimum local standards. It also acts as a model process for our suppliers who may be undertaking the establishment of their own Ethical Sourcing Program, to assist compliance with our trading terms requirements.

Our expectation is that all suppliers and vendors (including subcontractors) who manufacture and or supply finished goods for resale, must adhere to the below outlined Ethical Sourcing Program that is relevant to their supply chain and is aligned with minimum standards.
