Cooling-off Period

- After providing a team member with full payment, you have five business days (or up until the date of installation if it takes place within five days of making payment), within which you can cancel the installation. For the avoidance of doubt, if you agree for installation to take place on the day of purchase then there is no cooling off period. If you agree to installation before the five day cooling off period then the cooling off period is reduced accordingly.

Your Responsibilities

- You must purchase and take the toilet suite home with you in readiness for installation.
- Delivery can be arranged at time of order in store with a team member, charges apply.

Included

- LIKE FOR LIKE installation. All installations are conducted on a LIKE FOR LIKE basis. This means that the incoming product is able to be installed in the same position and with the same connections/configurations as the outgoing product
- The process includes de-installation of existing product, installation of new product, site clean-up and removal
- The customer should mark the job as 'Complete' on the hipages website bunnings.hipages.com.au/install on the day of the installation once work is completed. This will instigate the commencement of warranty and confirmation that the work was performed to satisfaction of the customer. If it is not marked as complete within 3 days of the install date, we will assume the work has been completed satisfactorily.
- All works undertaken are subject to the Australian Building and Construction Code.

Not included

- There may be circumstances where your new product can't be installed on a LIKE FOR LIKE basis. If this is the case, additional items may be required to finalise installation of the new product. Any additional works require the approval of the customer prior to commencement.
- Pricing and payment for any additional works should be negotiated directly between the customer and the installer. Additional payment direct to the installer may be required to undertake any additional works required.
- NB: At the completion of the installation process, some pre-existing issues such as drill holes, damaged surfaces and untiled areas may be exposed. The repair of such issues does not fall under the LIKE FOR LIKE terms as new products can vary significantly in dimension.
